User Name can be obtained from your FRS point of contact

1

Enter Your User Name

2

Click to receive email on resetting password  
Email will provide a secure link to use  
Clicking Link will bring you to second screenshot

The image displays two screenshots of the Franklin Retail Solutions MVP System's password reset interface. The top screenshot shows the initial 'Request Password Reset' page with a 'Username:' input field and a 'Request Password Reset' button. The bottom screenshot shows the same page after the user has entered their username, with the 'Username:' field containing 'temphelp' and additional fields for 'New Password:', 'Confirm New Password:', and a 'Set New Password' button. Arrows from the numbered callouts point to these specific elements.
